3. What changes did we make to GRS 2.7?

We added two items to cover records of vaccine attestations for Federal employees and contractors (item 063) and visitors (item 064), and two items to cover symptom screening and testing records for Federal employees (item 065) and contractors and visitors (item 66).

4. What changes did we make to GRS 4.2?

We reduced the retention period of item 100. It previously directed agencies to retain the records for 30 years after completing a declassification review. Now, agencies may destroy records documenting a declassification review immediately upon either of two subsequent events: The agency conducts another declassification review or the agency transfers the reviewed records to NARA. We altered the retention period in response to a request from the Department of State, which pointed out that the previous instruction could result in agencies being required to retain records documenting the declassification process until as late as 105 years after the records were created.

5. What changes did we make to GRS 4.4?

We modified the background information to clarify that the schedule applies to library and information centers within agencies, but not to stand-alone libraries, such as the Library of Congress, or national libraries.

6. What changes did we make to GRS 5.3?

In the first sentence of the Background Information, we changed the generic word ''sensitive'' to a term with a precise definition: ''controlled unclassified.''

7. What changes did we make to GRS 5.6?

We updated this schedule to further clarify that it does not include records related to Federal law enforcement and Federal correctional activities and that this exclusion includes border and transportation security and immigration and naturalization services. We changed the schedule title ''Security Management Records'' to help with this distinction.

We altered item 010 to clarify the subject matter as security *management* and expanded the description's list of examples. We removed the bullet for standard operating procedures manuals, as they are properly covered by GRS 5.7, item 030.

We revised items 030, 090, and 100 to clarify that they do not cover records related to Federal law enforcement and correctional activities including border and transportation security and immigration and naturalization services. Item 090 was revised to make it clear that it does not apply to videos of accidents or incidents or video surveillance of accidents or incidents in Federal facilities or facilities operated by contractors on behalf of the Federal Government.

We revised item 120's disposition instruction to be more concise. We revised item 130's title to clarify that it covers all manner of temporary access identification records. We changed the term ''sensitive data'' to ''controlled unclassified information'' in items 180 and 181.

8. What changes did we make to GRS 5.7?

We revised this schedule to clarify that it applies only to records related to management and oversight of agency administrative functions. This included changing the name of the schedule to ''Administrative Management and Oversight Records'' and updating the background information to clarify that it applies only to management of administrative functions, not functions related to agency mission. The new background section specifically excludes records related to agency strategic planning and performance management.

We altered item 010's title and revised the list of examples to remove generic records types that are arguably not ''management controls.''

We revised the title of item 040 and added a sentence to the description to clarify that the item applies only to requirements for reports related to administrative activities. We also added an exclusion to clarify that item 040 does not cover the reports themselves.

We eliminated from item 050's list of included records reports that are not specific to administrative activities, such as Performance and Accountability Reports (PAR). We also added an exclusion to make it clear that mandatory reports related to non-administrative matters are not covered by this item and must be scheduled by the agency.

9. How do agencies cite GRS items?

When you send records to an FRC for storage, you should cite the records' legal authority—the ''DAA'' number—in the ''Disposition Authority'' column of the table. Please also include schedule and item number. For example, ''DAA–GRS–2017–0007–0008 (GRS 2.2, item 070).''

10. Do agencies have to take any action to implement these GRS changes?

NARA regulations (36 CFR 1226.12(a)) require agencies to disseminate GRS changes within six months of receipt.

Per 36 CFR 1227.12(a)(1), you must follow GRS dispositions that state they must be followed without exception.

Per 36 CFR 1227.12(a)(3), if you have an existing schedule that differs from a new GRS item that does *not* require being followed without exception, and you wish to continue using your agency-specific authority rather than the GRS authority, you must notify NARA within 120 days of the date of this transmittal.

If you do not have an already existing agency-specific authority but wish to apply a retention period that differs from that specified in the GRS, you must submit a records schedule to NARA for approval via the Electronic Records Archives.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal rulemaking website (*https://www.regulations.gov*). Please include Docket ID NRC–2021–0218 in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at *https://www.regulations.gov* and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Part 32 of title 10 of the *Code of Federal Regulations* (10 CFR), ''Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material.''
2. *OMB approval number:* 3150–0001.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 653, 653A, 653B.
5. *How often the collection is required or requested:* There is a one-time submittal of information to receive a certificate of registration for a sealed source and/or device. Certificates of registration for sealed sources and/or devices can be amended at any time. In addition, licensee recordkeeping must be performed on an on-going basis, and reporting of transfer of byproduct material must be reported every calendar year, and in some cases, every calendar quarter.
6. *Who will be required or asked to respond:* All specific licensees who manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees, or persons exempt from licensing, medical use product distributors to specific licensees, and those requesting a certificate of registration for a sealed source and/or device.
7. *The estimated number of annual responses:* 3,038 [2,285 reporting + 349 recordkeepers + 404 third-party recordkeepers].
8. *The estimated number of annual respondents:* 662 (156 NRC licenses, registration certificate holder, and 506
